BRIEF & TURNAROUND

The Studio needs a 15-minute brief: business name + IG/TikTok handles, services/products to feature, location, existing footage (optional), and the offer/CTA. Late briefs shift delivery dates by the same amount.

DELIVERABLES & LICENSING

Deliverables: 1080x1920 MP4 per video + cover frame, via a shared folder.
Licensing: delivered assets may be posted by the Client on owned channels (organic). Paid-boost/ad license as

stated per tier. Resale, white-label reuse, and template reuse remain with the Studio.
AI disclosure: every deliverable includes on-screen AI-presenter disclosure and a delivery note stating which shots are AI-rendered; the Client reviews each video before publishing and is responsible for platform policy compliance (e.g., TikTok, Amazon, Meta) in their own accounts.

REVISIONS

As stated per tier; each additional round: $75/video. Requests must arrive within 7 days of delivery.

NO GUARANTEE OF RESULTS

The Studio does not guarantee views, sales, ROAS, or any performance metric. Performance depends on factors outside the Studio's control (product, offer, market, platform changes). No statement anywhere is a performance guarantee.

CANCELLATION & REFUNDS

Pilot: no refund once the brief is consumed; before that, full refund of any prepayment. Monthly tier: effective at cycle start; unused videos in a paid cycle do not roll over except by written agreement.

GENERAL

Independent contractor; no agency/employment relationship. Studio liability is capped at fees paid under this agreement. Confidentiality of briefs and unreleased assets applies to both parties. Governing law: State of Texas. This agreement may be signed electronically; a signature (wet, drawn, or typed) plus payment constitutes acceptance.
